International investing involves certain risks and increased volatility not associated with investing solely in the US. These risks include currency fluctuations, economic or financial instability, lack of timely or reliable financial information or unfavorable political or legal developments. The Fund may also invest in securities issued by smaller companies, which typically involves greater risk than investing in larger companies. Also, the Fund may invest in limited geographic areas and/or sectors which may result in greater market volatility.

*Before investing, you should carefully consider the Fund's investment objectives, risks, charges and expenses.
